We’ve Merged!

Behavioral Lab and Xlab have merged their SONA accounts to berkeley.sona-systems.com

Researchers
- Have access to a larger participant pool

Participants
- Only sing up once on SONA, our shared participant management system
- Can choose between a variety of B-Lab and Xlab studies

Payment Plans

Berkeley Prepaid Virtual Visa is replacing Citibank Virtual Visa as the Xlab’s electronic payment option.

Hello and Goodbye

Miho Tanaka’s last day at Xlab was earlier this summer. Her contribution to Xlab is greatly appreciated and her impact on Xlab will be remembered.

Jaya Roy recently joined the team as Behavioral Lab Coordinator and Xlab student staff supervisor. When she isn’t working with B-Lab or Xlab, she’s teaching Cognitive Science at the California College of the Arts or helping with Clinical Psychology research at CALM lab.

Moving Soon

This December we are re-locating to the Hearst Gym.

Our new space is large and can also accommodate small group studies! When the Haas library is remodeled, we expect Xlab to move back into the S building at Haas. This space will be shared with Behavioral Lab, giving you flexibility and more Haas resources at your disposal.

More Grant Money

Xlab is lifting the $1,000 limit to Xlab research grants.

These grants can now be used to pay participants outside of the Xlab subject pool.

Like Xlab?

We would love to hear from you. Send us your feedback HERE.
